Review of 2018 School Improvement Plan

Area Focus	Aim	Outcome
Christian Service LEAD	Every class will participate in at least 1 Christian Service activity within the Mullewa Community, within the year.	Every class completed at least one Christian service activity. K/PP: Made biscuits for the Senior Citizens 1/2: Community rubbish clean up 3/4: Pioneer Cemetery Clean up, Church Cleaning 5/6: Pioneer Cemetery Clean up K-6: Gifts for the Senior Citizens at Christmas
Keeping Safe <mark>L E A D</mark>	Increase the number of students demonstrating progress in the understanding of the keeping safe curriculum.	Students that were previously below satisfactory for health have demonstrated some progress in terms of understanding the keeping safe curriculum. This will require ongoing development.
Technology <mark>L</mark> E <mark>A</mark> D	Increase the use of integrated technology.	Teaching staff completed the technology matrix at the start of the year and identified their level of achievement and again at the end of the year. They identified a slight increase in the use of integrated technology throughout the school, however recognised that it required ongoing development.
Tracking Progress <mark>L</mark> E <mark>A D</mark>	All teachers contribute in developing an assessment schedule. Teachers then complete the assessment requirements by the given times.	The schedule was constructed and has been implemented, with some modifications, such as PM Benchmarks are only now once a term instead of twice and we will upload three Brightpath writing samples, not four as first thought.
